## Extended COVID-19 Learning Plan Goal Reporting

| Goal Category | Goal Related to Achievement or Growth on K-8 Benchmarks |
| :---: | :---: |
| Middle of the Year Reading Goal | All Imlay City Schools students will demonstrate growth toward proficiency in English Language Arts, specifically, reading and writing. This goal will be assessed through NWEA Measure of Instructional Practice (MAP) testing for students in grades K-8. NWEA assessments will be given three times during the school year. The first administration of this assessment will be given within the first 30 days of school for students in grades K-3 (RBG3 guidelines) and within the first nine weeks of school for students in grades 4-8 (Public Act 149 of 2020/Benchmark Assessment guidelines). This first assessment will provide an initial baseline data RIT range for each individual student. The growth goals will then be measured at the mid-and-end-of-year mark. <br> The second assessment will occur mid-year. Data analysis will include ensuring that student progress towards meeting end-of-year goals will be a priority. NWEA is adaptive and will establish individualized student growth goals for each student, grades K-8. Hence, progress towards those goals will be measured in the form of grade-level RIT bands and ultimately progress towards benchmark grade-level goals. NWEA is adaptive and will establish individualized student growth goals for each student, grades K-8. Hence, progress towards those goals will be measured in the form of grade-level RIT bands and ultimately progress towards benchmark grade-level goals. Additionally, achievement on growth will be analyzed and reported according to our district demographics. Demographic data will include: all students, economically disadvantaged, special education, English language learners, gender, and applicable race/ethnicities. |
| End of the Year Reading Goal | All Imlay City Schools students will demonstrate growth toward proficiency in English Language Arts, specifically, reading and writing. This goal will be assessed through NWEA Measure of Instructional Practice (MAP) testing for students in grades K-8. NWEA assessments will be given three times during the school year. The first administration of this assessment will be given within the first 30 days of school for students in grades K-3 (RBG3 guidelines) and within the first nine weeks of school for students in grades 4-8 (Public Act 149 of 2020/Benchmark Assessment guidelines). This first assessment will provide an initial baseline data RIT range for each individual student. The growth goals will then be measured at the mid-and-end-of-year mark. <br> The final assessment will be given at the end of the school year. Final data will be analyzed in relation to end-of-year student growth goals. NWEA is adaptive and will establish individualized student growth goals for each student, grades K-8. Hence, progress towards those goals will be measured in the form of grade-level RIT bands and ultimately progress towards benchmark grade-level goals. Additionally, achievement on growth will be analyzed and reported according to our district demographics. Demographic data will include: all students, economically disadvantaged, special education, English language learners, gender, and applicable race/ethnicities. |

| Middle of the Year Mathematics Goal | All Imlay City Schools students will demonstrate growth toward proficiency in Mathematics. This goal will be assessed through NWEA Measure of Instructional Practice (MAP) testing for students in grades K-8. NWEA assessments will be given three times during the school year. The first administration of this assessment will be given within the first 30 days of school for students in grades K-3 (RBG3 guidelines) and within the first nine weeks of school for students in grades 4-8 (Public Act 149 of 2020/Benchmark Assessment guidelines). This first assessment will provide an initial baseline data RIT range for each individual student. The growth goals will then be measured at the mid-and-end-of-year mark. <br> The second assessment will occur mid-year. Data analysis will include ensuring that student progress towards meeting end-of-year goals will be a priority. NWEA is adaptive and will establish individualized student growth goals for each student, Imlay City Schools Extended COVID-19 Learning Plan 8 grades K-8. Hence, progress towards those goals will be measured in the form of grade-level RIT bands and ultimately progress towards benchmark grade-level goals. Additionally, achievement on growth will be analyzed and reported according to our district demographics. Demographic data will include: all students, economically disadvantaged, special education, English language learners, gender, and applicable race/ethnicities. |
